

December 27, 2018

Dear Valued Roll-Off Customer,

This letter serves as a notice of a rate adjustment effective January 1, 2019. On December 18, 2018, the Madera County Board of Supervisors approved contract amendments with Redrock Environmental Group that updated the roll-off services rate structure. This will result in changes to the fees paid by customers who receive roll-off services. While the haul rate is increasing, the disposal fee will decrease. Depending on the number of hauls and amount of weight you dispose of, your overall monthly bill may be increased or decreased. The haul rate will be increased to \$185.00 per pull and the disposal fee reduced to \$55.00 per ton (pass through disposal fee). Delivery, rental and all other roll-off service fees will not be changed and will remain the same. We truly value your continued patronage throughout these adjustments and thank you for your business. Should you have any questions regarding these changes, please feel free to contact us during business hours.

Best Regards,

Redrock Environmental Group
